

Ichi, ni, san, shi!

Nearly for the last 20 years he has left his marks on the Dresden music-underground. In the 90ies he shaped bands like **Aspekte der Eitelkeit** und **Montana Peachclub**. During the last years he was responsible for the project **Lindbergh**. Every time he was interested in the intersection of the genres Folk, Pop and Elektro to form songs, which tell stories, erratic and with a homogeneous sound.

With his current band **Shortcuts** Andreas Schulze again remains true to his vocabulary. But not only the conceptual use of Nintendos playstation DS as an electronic sound source, but also the participation of drummer Julia Stephan (**Flanschies**) and guitarist Marco Sebastian Christ (**ne:o**) makes it possible to ensnare his thread with pleasant fine and rich in contrast ideas.

"Thanks, I Feel Fine" is the trio's first album. 11 close-cropped songs, 11 stories in english and german language, a journey full of daydreams and sleepless nights, which ends with an enquiring gaze back and with the wish "AGAIN!" spoken out loud.

The Album is not just available as a free download, the band offers a physical version in form of a 10-inch record containing the songs "Flying Jive", "Stuhlstück", "Holy Sand" and "Ulrich, die Made" plus the complete album on cd-r. All covers were designed by the band's circle of friends. Each copy is unique.

Shortcuts - Thanks, I feel fine
